

One-stop Integrated Resources Access Platform

— ILL Platform for China Academic Libraries

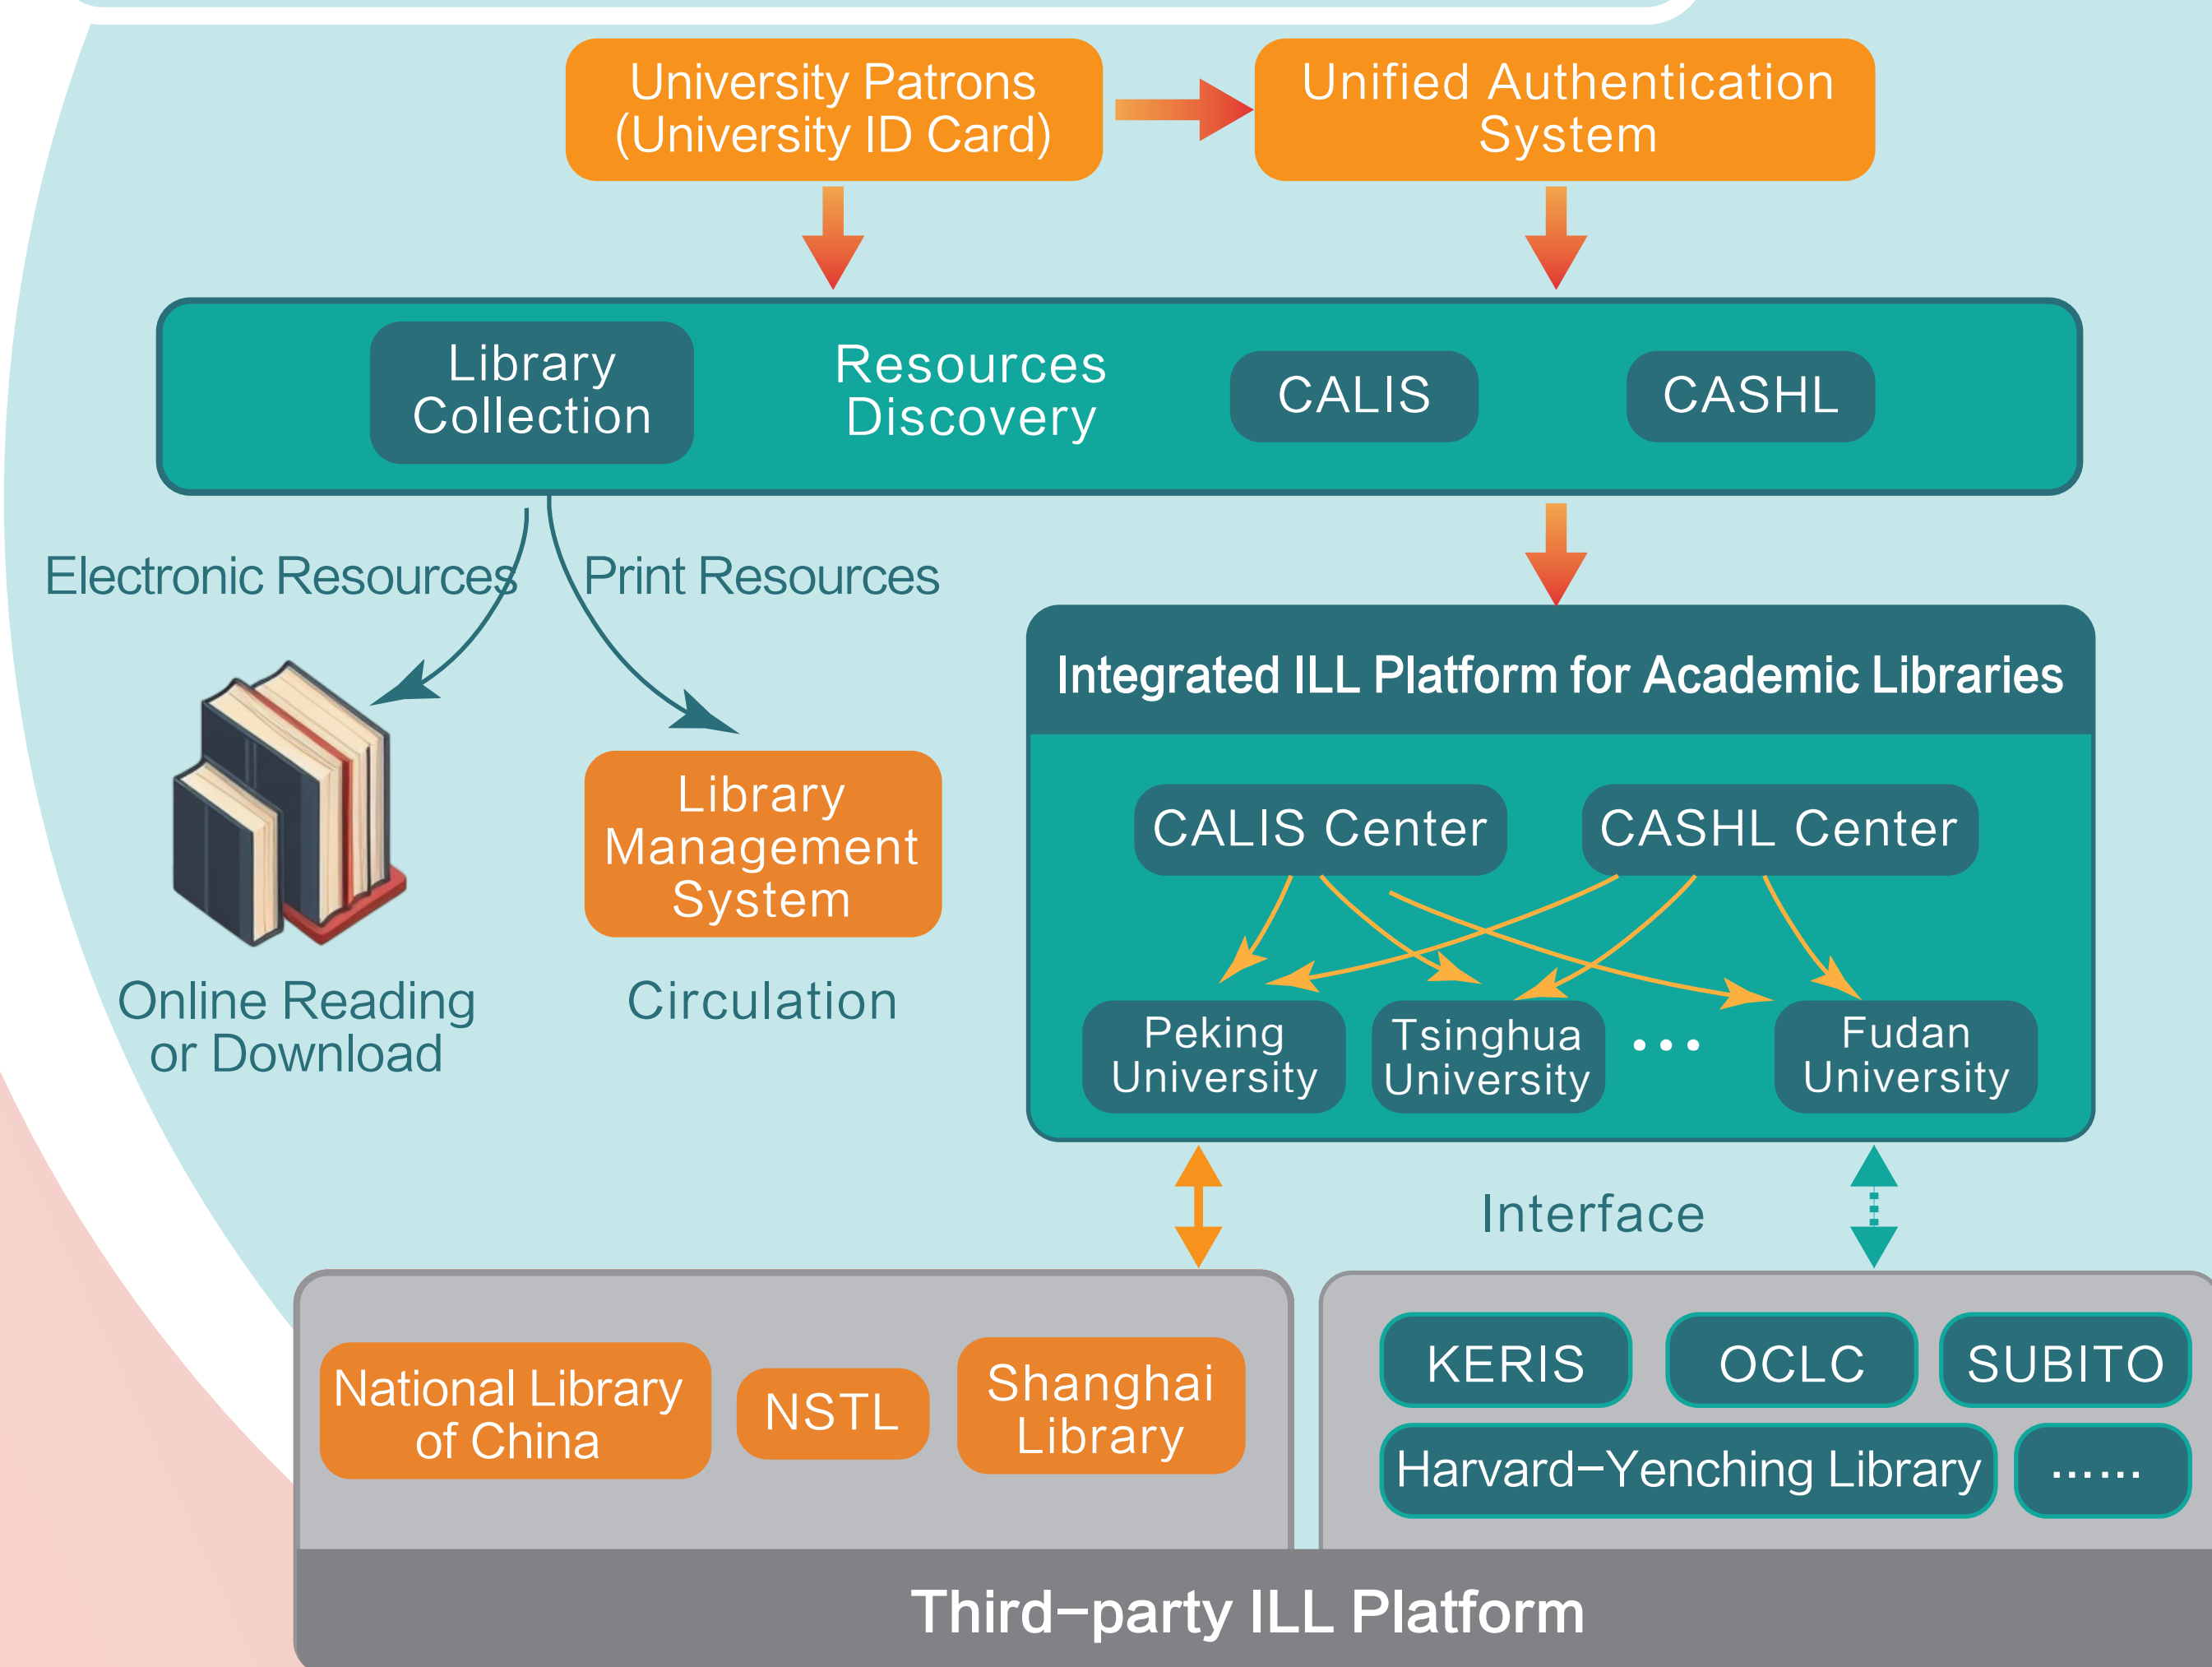

The Integrated ILL Platform for China Academic Libraries based on Spring Cloud microservice architecture was officially launched on May 18, 2024. This brand-new platform is designed to integrate two ILL systems of CALIS and CASHL, the two major ILL systems for the academic libraries in China.

Platform Features:

- 1 Nationwide Access in One Account**
- 2 Multi-center model, transactions can be transferred to each center**
- 3 Various discovery systems are integrated seamlessly, including Primo, Summon, EDS, CALIS E-reading Discovery, etc.**
- 4 Patrons and librarians services are processed in a one-stop manner**

Integrated Service Model:

Integrated ILL Platform for China Academic Libraries

高等教育文献保障系统
China Academic Library & Information System

CALIS ILL community has over **1500** member libraries.

中国高校人文社会科学文献中心
China Academic Social Sciences and Humanities Library
